Our Comprehensive Outpatient Rehabilitation Facility

Welcome to Advantage Therapy Centers! Attached is the paperwork that needs to be completed prior to your initial evaluation with our clinicians. If you have any questions, or need assistance with this paperwork, please do not hesitate to call our facility.

Let me explain a little bit about who we are and what we do here at Advantage Therapy Centers. Our comprehensive outpatient rehabilitation facilities are held to a much higher standard of care than any other outpatient facility in the area. Our facilities utilize a multi-disciplinary team of physicians and clinicians to provide pulmonary therapy. You will be meeting with our Clinicians and Program Coordinator to help improve your condition and greatly improve the quality of your life. Our staff will work together to design an individualized program for you that will allow you to work towards your goals at your own pace.

Generally, your first visit will be with the Program Coordinator and one of our therapists. We encourage you to bring your spouse or a family member, during your first visit, so that they understand the program and help answer any questions you may have. We offer both morning and afternoon sessions. You will be coming 3 days a week, for 2-3 hours, for approximately 8-12 weeks, depending on your progress.

We have been taking care of breathing disorder patients for over 10 years and our reputation for excellent care is based upon the results we achieve with our patients. Once you have completed our program, you will feel so much better and find it much easier to cope with your breathing problems.

If applicable, please remember to bring your prescription from your referring physician, a referral from your primary care doctor, your insurance card(s), and your co-pay.

Thank you for choosing Advantage Therapy Centers!
